Herringbone

Although herringbone floors may be a recent trend, they have been used for thousands of years and were once considered a symbol of prosperity in ancient Rome and Greece. Today a herringbone floor is ideal for creating harmony and balance, adding a pattern that adds visual interest to the floor and has the advantage of making spaces appear bigger in your home.

Each herringbone pattern has been skillfully created using a new super matt technology (Gra-Matt™Ultra) that makes the floor visually closer to natural wood, unlike many other glossy LVT products. The herringbone design accurately mimics the texture of natural timber while incorporating multi-tonal variance to give your herringbone floor realistic character and depth.

DESCRIPTION			
Instructions for use	Elegance Royale Herringbone is suited to commercial areas within the retail, leisure, office, education and healthcare sectors, plus any domestic situation. Temperatures in conservatories can become quite high. It is strongly advised that, in such situations, we recommended high temperature adhesive is used.		
Guarantee	15 years domestic guarantee 10 year commercial gurantee (subject to conditions).		

We want your new Elegance Royale Herringbone floor to continue to look as good as the first day it was installed, so to help you achieve this we have laid out the following floorcare guidelines. Each product in the Royale collection features a polyurethane (PU) treatment within a hard-wearing surface providing protection against everyday wear, ensuring optimum long-term performance of your floor. Furthermore, Royale does not harbour dust mites or bacteria making it ideal for the home environment.

Floorcare instructions for domestic interiors:

Initial cleaning after installation. Avoid walking on the floor for at least 24 hours following completion of installation. Sweep or vacuum to prevent loose dirt or grit from scratching the floor. Polishing your floor can be beneficial to help prevent slight surface scratches and to provide further protection.

Day to day cleaning Sweep or vacuum the floor to remove loose dirt, grit or dust. Regularly mop the floor evenly using clean mops and neutral cleaning solutions, diluted to the manufacturer's instructions. Collect any excess liquid in a mop bucket. Rinse the floor with clean water and allow to dry.

Regular cleaning is more beneficial to the floor covering and is more cost effective than occasional heavy cleaning.

Install barrier mats at entrances to pick up grit and moisture. (Note, some rubber-backed mats may discolour the floor). Insert protective pads and cups under furniture to protect your floor from indentations and scratches. Remove spillages as quickly as possible to reduce risk of staining and causing slip hazards. Regularly trim pets claws as these can cause fine scratches.

Do not use abrasive liquids or metal scouring pads as these can damage the floor. Avoid cleaning the floor with solvents, caustic detergents, washing up liquids, soap powders, bleach, furniture polishes, petroleum based products, pine gels, stain removers or highly coloured products. Such products may make the floor slippery or cause permanent damage. Avoid dragging furniture with unprotected feet across the floor. Regularly trim pets claws as these can cause fine scratches.

For commercial floorcare instructions, contact your local distributor for further information.

The Elegance Royale Herringbone collection of luxury vinyl tiles has been developed to meet the highest technical specification of its type. Ideal for all areas of the home, the products ensure high performance and optimum style. Compared with many alternative flooring options, Elegance Royale will under normal conditions resist household stains, will not crack, chip or splinter. The manufacturers of Elegance Royale are confident that the high quality products will provide many years of valuable service. All products purchased from the range are guaranteed for 10 years in commercial interiors and 15 years in domestic interiors against normal wear and tear in the recommended environment, provided that they have been fitted correctly and maintained in accordance with the manufacturer's instructions. Full terms and conditions of the guarantee are available on request from your flooring provider.
